Valerio	Nina	Jan
Synth#1 - Mikro Korg Stereo		Electric Guitar Mono from DI
Synth#2 - Nord Lead Stereo		
Laptop - Stereo with Backings (Beats, Sequencer, Synth)		
Backing Vocal	Lead Vocal	Backing Vocal

---

We provide our own digital mixing system (Behringer X Air XR18) for in-ear monitoring (IEM).

## Monitoring & FOH Options:

- **IEM:** Self-contained via our XR18 (3 mono aux buses).
- **Option A (Full Mix):** We provide a pre-mixed stereo sum (L/R)—including internal effects (reverb/delay)—to the house PA. Access to the XR18 from the FOH position is available via Wi-Fi/LAN.
- **Option B (Splitter):** All signals can be provided individually via a transformer-isolated, **passive splitter (XLR male patchbay)**. This enables a completely independent FOH mix using the venue's mixing console.

Alternatively, we offer the option to output all input signals individually via a transformer-isolated splitter. These signals are provided via an XLR male output patchbay and can—if desired—be used to create a dedicated FOH main mix at the venue's mixing console.

The channels used are listed below:  
Mixer Channel Settings

<b>Channel No.</b>	<b>Titel</b>
CH1	Laptop LI
CH2	Laptop RE
CH3	Nord Lead LI
CH4	Nord Lead RE
CH5	Korg Mikro LI
